Re: Data Center Recovery Project

Dear Mr. Malee:

We would like to thank you for your extraordinary efforts concerning the assessment and recovery of our IT equipment. As you are aware, the equipment in question was "mission critical" to our production needs.

Moreover, your ability to coordinate the recovery effort with several original equipment hardware manufacturers representing a value of over \$50 Mil. was impressive. Without their cooperation, we would have fallen well short of our project goals and overall objective.

Thank you again for your professionalism, and please extend to your entire team sincere gratitude for a job well done!

Regards,
